

COMMUNITY ART CENTER FOR STUDENTS

CHIRAG PATEL

SITE RENDER

Community Art Center tailored specifically for students. Nestled within the vibrant Trinity Bellwood neighborhood, this project seeks to cultivate an environment that ignites creativity and imagination. Drawing inspiration from biophilic and human-centric design principles, the aim is to craft a space that not only nurtures artistic expression but also fosters a deep connection with nature and community.

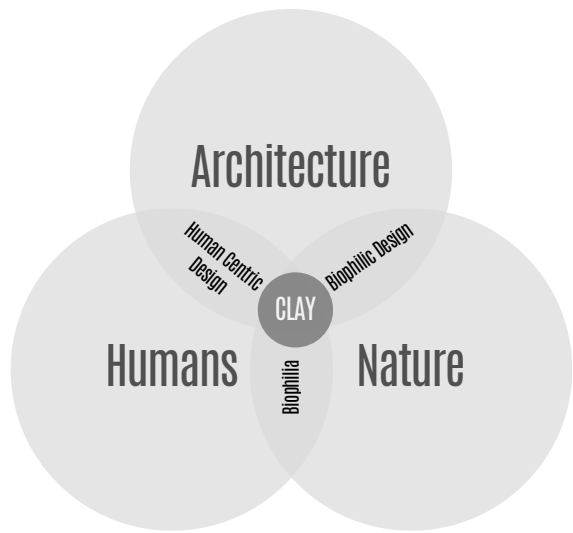

Ossington Ave

SITE MAP

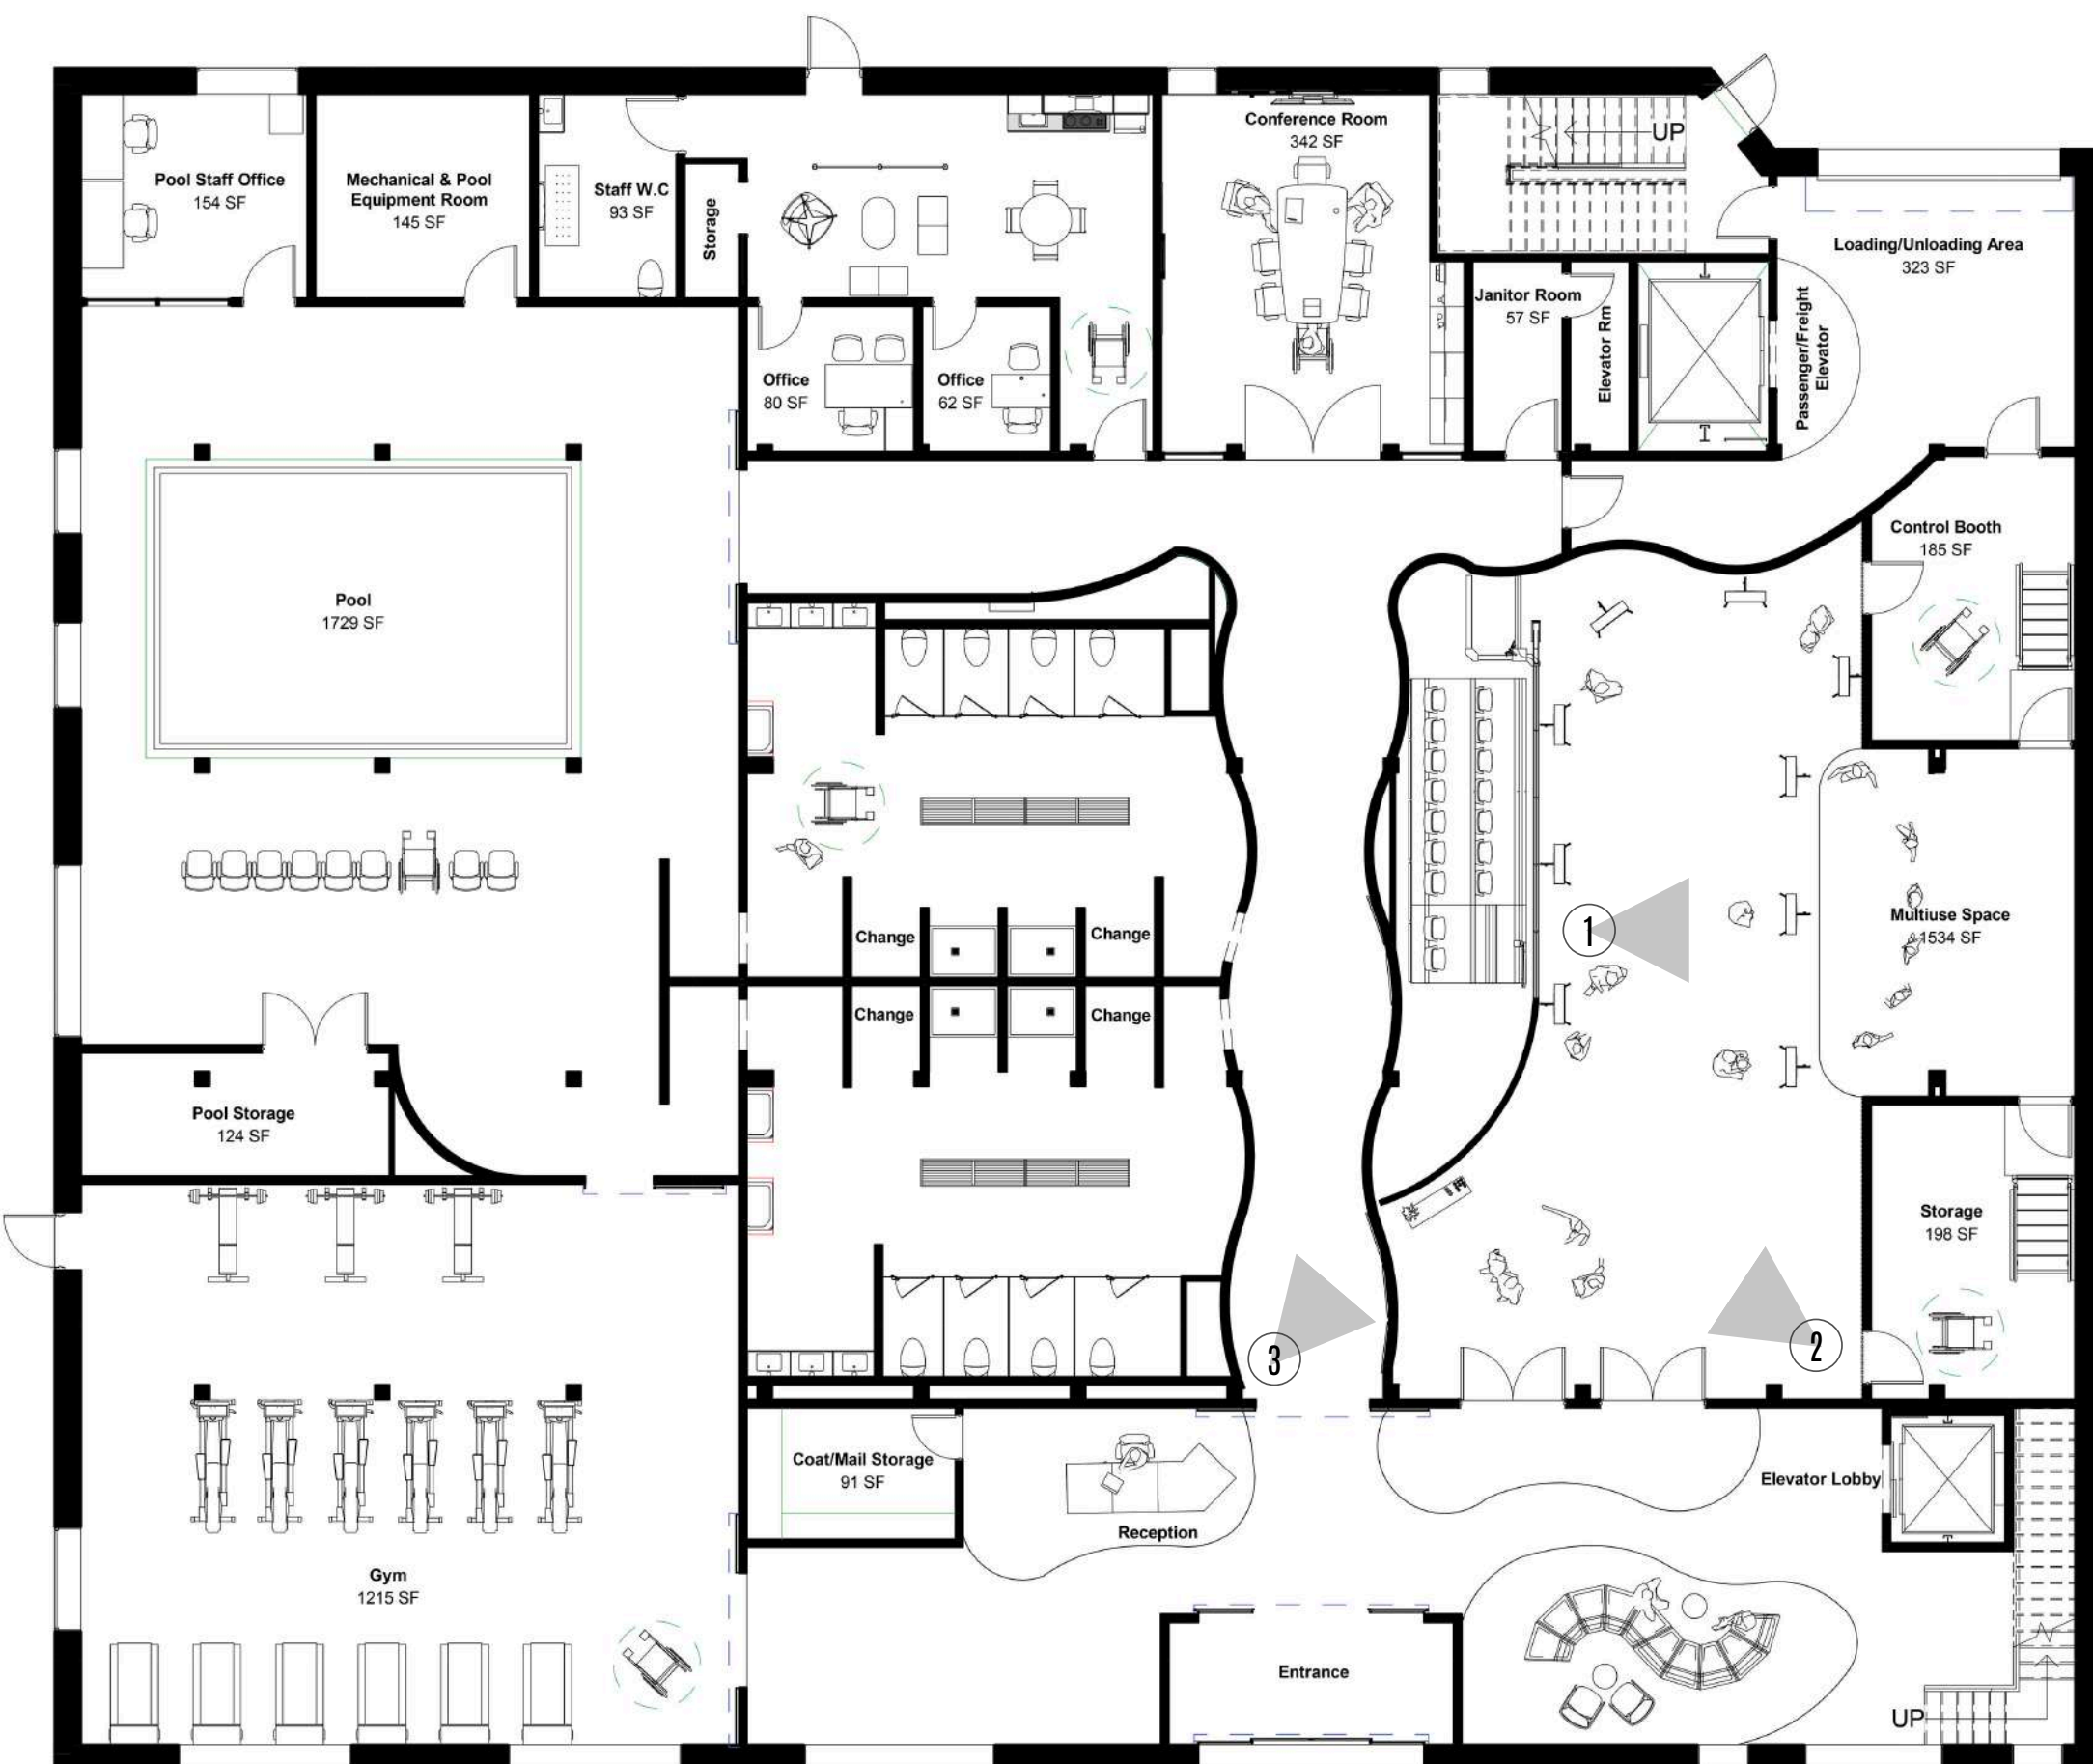

CONCEPT

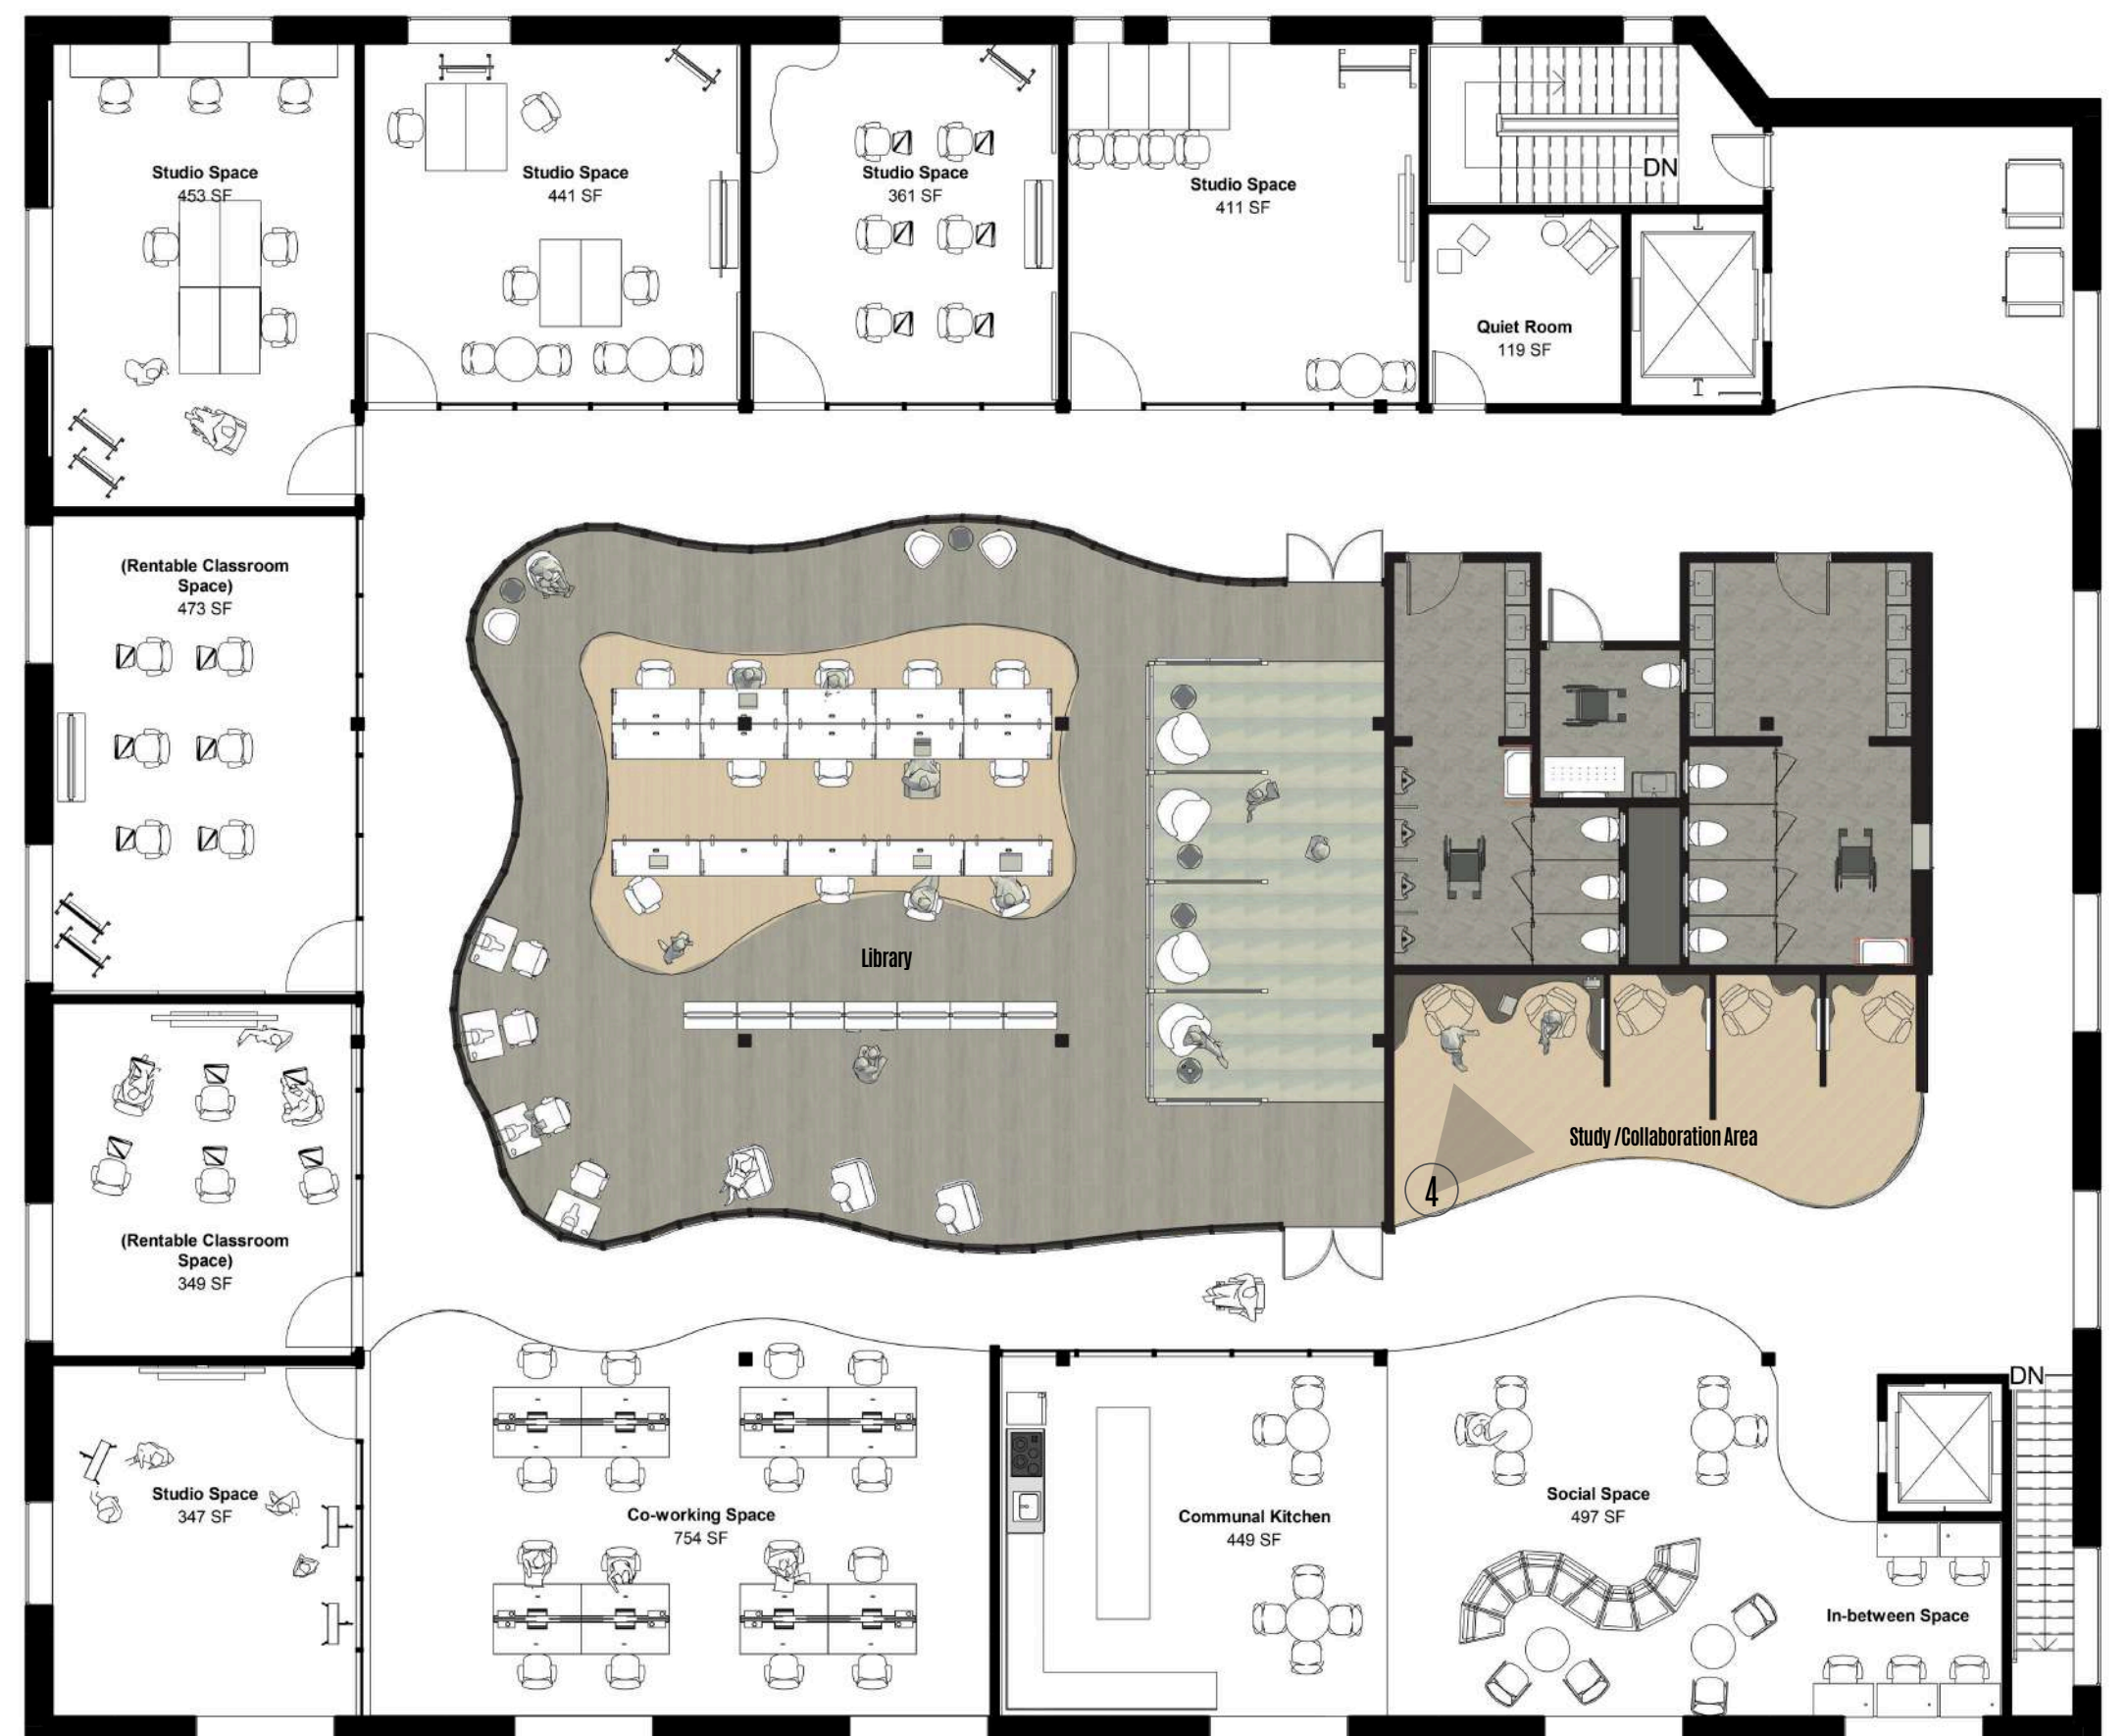

Clay transcends its material form, forging a vital link between nature, architecture, and human well-being. Embodying the essence of biophilic design, to create spaces that resonate with our deep connection to the natural world, fostering harmony and enriching the human experience.

STUDY AREA RENDER

FOCAL AREA

Positioned at the heart of student activity, the Library design, with its curved walls and ceilings inspired by biophilia, fosters a conducive environment for concentration and focus. This design then seamlessly transitions into a study & collaborative space, promoting student interaction and collaboration.
